

Firematic **BRUTE**

THE BRUTE

The Firematic BRUTE fills a coverage gap between the B.R.A.T. and ordinary fire apparatus. It has the size and brutish strength to bring greater pumping capability, and greater load capacity to places where the traditional pumpers, rescues, and ladders cannot reach.

For many beach communities, low-clearance firehouses, and other “special case” scenarios, Firematic’s BRUTE is the perfect fit, and can be built to your exact requirements.
