

Firematic

B.R.A.T.[®]

BRUSH RAPID ATTACK TRUCK

THE ORIGINAL B.R.A.T.

The Firematic B.R.A.T. was the first to move beyond the old homemade pickup truck configuration to the fully-engineered, forethought design of a true purpose-built vehicle for off-road firefighting.

This approach allows for more capability, and less compromise in the final product. That's also why these trucks can get you to the most difficult locations, and withstand the toughest conditions.
